# Vesta<sup>®</sup> Flex

#### **Bridgelux Differentiation**

- It's in our DNA is to solve customers' problems
- 15+ years of driving lighting market transformation
- Vertically integrated global supply chain
- Strategic focus on the simplification of human centric lighting systems

#### What is Vesta Flex?

- A family of tunable white LED drivers with wired and wireless control modules, connected via standard RJ45
- Multiple interoperable plug-and-play control options that are customizable to meet the needs of lighting projects
- Compatible with Wi-Fi, Bluetooth, DALI2, 0-10V controls
- Optimized to work with Vesta Series tunable white sources
- Driver and control module are decoupled enabling SKU
  reduction and inventory optimization

## 

#### Vesta Flex Drivers

| Parameter        | Specification          |                    |  |  |
|------------------|------------------------|--------------------|--|--|
| Power            | 30W brick              | 60W brick & linear |  |  |
| Input            | 120-277VAC             |                    |  |  |
| Outputs          | 2 independent channels |                    |  |  |
| Output current   | 100 - 1400mA           | 200 - 2000mA       |  |  |
| Output Voltage   | 14-43VDC               | 14-54VDC           |  |  |
| Control Port     | RJ45                   |                    |  |  |
| Case Temperature | -40°C to +90°C         |                    |  |  |

| Vesta Flex Control Modules |                                |                |       |        |  |  |
|----------------------------|--------------------------------|----------------|-------|--------|--|--|
| Parameter                  | Specification                  |                |       |        |  |  |
| Control Options            | WiSilica<br>Casambi<br>Silvair | WiZ            | DT8   | Analog |  |  |
| Communication Protocol     | BLE-<br>Mesh                   | Wi-Fi &<br>BLE | DALI2 | 0-10V  |  |  |
| Control Port, Input Power  | RJ45                           |                |       |        |  |  |
| Ambient Temperature        |                                | -20°C to +45°C |       |        |  |  |

## Vesta<sup>®</sup> Flex

#### **Dual Channel Driver**

Part Number: BXDR-xoxT-U2xxP-01-A 130mm x 77mm x 30mm (Brick) 320mm x 32mm x 28mm (Linear)

### WISILICA BLE Control

Part Number: BXCS-12W-N2P-01-A 75mm x 32mm x 20mm (L x W x H)

### Wi-Fi Control

Part Number: BXCS-12Z-N2P-x1-A 75mm x 32mm x 20mm (L x W x H)

#### DALI2 DT8 Control

Part Number: BXCS-12D-N2P-01-A 50mm x 32mm x 20mm (L x W x H)

#### 0-10V Control

Part Number: BXCS-12A-N2P-01-A 50mm x 32mm x 20mm (L x W x H)

#### Features & Benefits

- Smooth, flicker free CCT tuning and dimming to 0.1% with dim-to-off
- High resolution linear, square and logarithmic dimming curves to match preference and industry controls standards
- NFC programmable dimming curves and maximum output currents
- Built-in over-voltage, over-temperature and short circuit protection
- Driver auto detects control module and adjusts behavior accordingly
- 88% efficiency at full load
- Flicker free per IEEE P1789, CEC Title 24, NEMA 77-2017

- Connect lighting fixtures to an intelligent non-flooding BLE mesh network
- Commission and manage lighting fixtures via iOS and Android apps or web portal
- Interoperates with beacons and sensors via BLE
- Large ecosystem of compatible sensors, switches, gateways, 3rd party clouds
- Cloud services such as system monitoring, device management, predictive maintenance, asset tracking, data analytics

- Connect lighting fixture to the internet via Wi-Fi; no hub needed
   Interoperates with sensors via BLE
- Commission and manage lighting fixtures via iOS and Android apps or web portal
- Large ecosystem of compatible sensors, switches, gateways, cloud platform
- Cloud services such as system monitoring, device management, predictive maintenance, asset tracking, data analytics

- DALI2 DT8 certified
- Two channel control of color temperature and intensity
- Compatible with industry standard DALI2 DT8 devices
- Commission and manage lighting fixtures via any DALI2 certified controller

- 0-10V control protocol
- Two channel control of color temperature and intensity
- Compatible with industry standard 0-10V current sourcing or 1-10V current sinking wired control devices
  - Dim to off hysteresis with turn off at 0.6V and turn on at 0.8V
