

With its proprietary materials and unique re-workable process, CiVUE™ provides the most advanced and cost-effective optical bonding solutions (LucidBond™ & ArmorBond™) that enable sunlight readability and provide extra vandal resistance for outdoor displays and portable devices.

For customers' special requirements, CiVUE is also capable of designing and manufacturing custom models.

Features & Benefits

- + Bonding sizes up to 75"
- + Fully re-workable
- + UV protection (anti-UV, UV cut)
- + UV resistance (3,000 hrs+)
- + Extended temp range (-50~105°C)
- + No water condensation & contamination
- + Improve clarity & reduce "sparkles"
- + Better impact protection
- + No "Green House" effect
- + Eliminate "Wash-Out" effect
- + Reduce parallax error
- + Waterproof
- + Increase ambient contrast ratio & viewing angle for superior viewing readability

-  Waterproof
-  Bonding Size
-  3,000 hrs + UV Resistance
-  Sunlight Readable
Increase Viewing Angle
-  Viewing Angle
-  UV Protection
-  Better Impact Protection
-  -50~105°C Extended Temp Range

Applications

- + Military
- + Marine
- + Oil and Gas
- + Avionics
- + Medical
- + Gaming
- + Automotive/ Vehicle
- + Transportation
- + Navigation
- + Digital Signage
- + Industrial HMI

- + Payment Terminal / Kiosk
